CoolCargoes

CONFERENCE

Cold Chain Transparencies

May 12 -13, 2009
The Nines, Portland, Oregon

The first Cool Cargoes Conference will address the major issues driving the refrigerated and frozen cargo industries.

“**Cold Chain Transparencies**” is the theme of the event, which will include panels of experts examining trends and significant developments in the transport of such temperature-controlled cargoes as perishable foods, pharmaceuticals and medical supplies. Guest speakers will discuss how the supply chain for temperature-controlled cargoes is evolving, the expanded role of public refrigerated warehouses, the latest in technology advancements, and what ports and carriers are doing to improve transportation efficiencies.
